

# **Kicking' the Sunbeams**

**Macnab**

## **Verse 1**

Kickin' the sunbeams, watch the golden droplets fall  
Breaking the daydream, blackbird sings out its call  
Feels like we want to get away, feels like we want to break away

## **Verse 2**

Mind is numbed by, the constant daily grind  
Ticks like a constant nagging, of something left behind  
Feels like we want to get away, feels like we want to break away

## **Chorus**

Woah, Something about you draws me back  
Woah, Working so hard to keep on track  
Woah, Fallin' down we get back up  
Woah, Cause love will never stop!

## **Verse 3**

Trapped in a mindset, can't escape the atmosphere  
Draggin' me down, just like a giant ball of fear  
Feels like we want to get away, feels like we want to break away

***Repeat chorus***

## **Middle 8**

Love, love will never stop! x8

***Repeat verse 1***

***Repeat chorus x 2***
